TODAY'S NUMBERS IN CONTEXT

Orders Due	Orders Late	Units Short	Materials Low
0	**0**	**0**	**1**
same as yesterday (7d avg: 0.0)	same as yesterday (7d avg: 0.0)	same as yesterday (7d avg: 1.4)	same as yesterday (7d avg: 1.0)

LAST 7 DAYS AT A GLANCE

Date	03 Feb	04 Feb	05 Feb	06 Feb	07 Feb	08 Feb	09 Feb
Late units	0	0	0	0	0	0	0
Shortfall	10	0	0	0	0	0	0

ORDERS TO PRIORITISE TOMORROW (TOP 5)

#	Order	Customer	Product	Due	Status	Reason

No customer orders requiring intervention tomorrow.

SUPPLIER WATCH

• **PO-2** (EastCoast Components): 315 units of Steel Rod 10mm — **1 day late** (expected 08 Feb)

WHAT HAPPENED AND WHY (OBSERVED FACTS)

- Steel Rod 10mm: Closing inventory at 50 kg (4.0 days of cover, safety stock threshold 50 kg). (Seen directly in the data)

From past analysed cases, not detected today:

• **Supplier 1 delivery delay** (**Strong evidence**): 7-day supplier delay propagated into assembly starvation in past benchmark evaluation.

• *Evidence is limited: SAGE has been tested on simulated data.* View Trust section →

Framing: SAGE performs controlled synthetic causal-attribution evaluation under an expert-defined causal model; it does not claim to prove real-world causality.

Simulated data. System knows data up to 2025-02-09 only. • Generated at 06:34:47 UTC.
