SAGE Daily Brief

Simulated factory data as of 2025-12-31

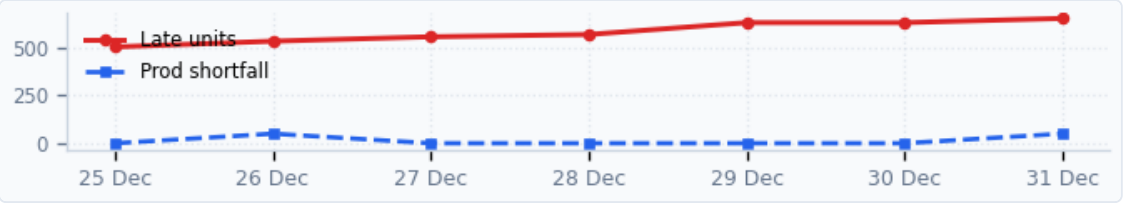

ACTION NEEDED • 49 ITEMS NEED ACTION

THE BOTTOM LINE

P I

TODAY'S NUMBERS IN CONTEXT

Orders Due	Orders Late	Units Short	Materials Low
1	**47**	**702**	**1**
down from 2 yesterday (7d avg: 1.0)	same as yesterday (7d avg: 42.6)	up from 630 yesterday (7d avg: 596.0)	same as yesterday (7d avg: 1.0)

PAST ANALYSED CASES: WHAT CAUSED WHAT

Supplier 4 delivery late → Steel Rod 10mm below safety level

Observed steel rod 10mm below safety level on 31 Dec is consistent with supplier 4 delivery late starting on 25 Dec.

Partly seen · **Model check:** Model inconclusive (Computed just now) — Attribution completed within 5m cap; confidence threshold not exceeded.

FOCUS TOMORROW (TOP 5 PRIORITIES)

#	Action	Owner	Due	Reason
1	**Fix at the root: Supplier 4 delivery late**	Supply Chain Lead	Immediate	Observed steel rod 10mm below safety level on 31 Dec is consistent with supplier 4 delivery late starting on 25 Dec. (Confidence: Partly seen)
2	**Expedite delivery for SO-164 to Metro Distributors**	Customer Logistics	10:00 AM	1 units of Widget Model X are 90 days overdue (was due 02 Oct).
3	**Expedite delivery for SO-165 to Coastal Traders**	Customer Logistics	10:00 AM	16 units of Widget Model X are 89 days overdue (was due 03 Oct).
4	**Expedite delivery for SO-167 to Sunrise Wholesalers**	Customer Logistics	10:00 AM	8 units of Widget Model X are 89 days overdue (was due 03 Oct).
5	**Expedite delivery for SO-173 to Metro Distributors**	Customer Logistics	10:00 AM	13 units of Widget Model X are 83 days overdue (was due 09 Oct).

SUPPLIER WATCH

• **PO-18** (EastCoast Components): 407 units of Steel Rod 10mm — **139 days late** (expected 14 Aug)

Framing: SAGE performs controlled synthetic causal-attribution evaluation under an expert-defined causal model; it does not claim to prove real-world causality.
